From the desk of Randy...

Here at COMM1 we strive to continue to offer our customers the newest services available. As we look to the continuous growth with people using the internet for work, school and play, we see the need for more speed in the up and download of internet. We are excited to make our customers experience more pleasurable and continue to keep the cost down. We have made **increases in all customer speeds** as of the 1st of March. Our increases go as follows: 10/10 now 20/20, 15/15 now 35/35, 20/20 now 50/50 and as always...NO CAPS! We hope this helps as families become busier and more dependent on the speeds of their internet.

Another addition we have made at COMM1 is **RESTART TV**. This service is now available on ALL channels, just high-light the channel you want to restart, press the green button on remote and you are back to the beginning of the show!

COMM1 is also using a **Network Based Storage for recordings**. We now offer streams of recordings. We have available 3 Streams and 500 GB for \$11 and 6 Streams with 500GB for \$16.

All 3 of these latest additions have come at no extra cost to the customer, our goal is to continue to offer our customers the latest and greatest at a price we can all agree upon!

Top 6 reasons to sign-up for auto pay today!

1. CONVENIENCE

By setting all your bills to be paid automatically, you're not as pressured to keep track of what needs to be paid when or paying them on time. Once an automatic payment plan is established, your bank or credit card will handle the rest.

2. REWARDS

The biggest reason folks charge their monthly bills to their credit card is to get reward points. All those bills add up to hundreds of points each month that are credited to your rewards account. Why not use your bills to help you earn free travel, rewards or even cash back?

3. ENVIRONMENTAL ISSUES

By eliminating paper bills and check writing, you reduce your impact on the environment. Not only do you save paper and trees, but you eliminate the carbon footprint left by snail mail. Plus, you don't have to buy and keep on-hand a constant supply of stamps.

4. HELPS YOUR CREDIT SCORE

When your bills are set up automatically paid, you should rarely miss a payment or be delinquent. These are two things that can hurt your credit score. In fact, when credit scoring agencies see that your bills are always paid on time, it helps your credit score by keeping it high or boosting it to a higher bracket.

5. LESS CHANCE OF IDENTITY THEFT

If your bills are not mailed to your home and you are not mailing in paper payments with credit card or checking account numbers, you reduce your risk of identity theft. There are risks when paying online as well, but the security surrounding these payments is typically far greater than the security offered by an unlocked mailbox.

6. SAVES MONEY

Since you'll no longer have to pay for checks, stamps, envelopes or gas for trips to the post office, having your bills paid automatically saves you money too!
