Thur, Nov 28-29th for  
the Thanksgiving Holiday.**

## **COMM1 announces plans to extend their FTTH in the community of Belmond!**

Good news travels fast, especially when it involves faster internet speeds. The community of Belmond will be able to say goodbye to the headaches of slow, unreliable internet service and switch to much more reliable services from COMM1. Randy Yeakel CEO of COMM1 has announced a 2 yr. project to bring Fiber to the Home and businesses in Belmond.

COMM1 looks at Belmond as a community that deserves to see the benefits of fiber optics. The biggest benefit of fiber is that it can offer much faster speeds over much longer distances than traditional copper-based technologies like DSL and cable. We feel this is a very positive move for COMM1 and the community, when people can live anywhere, but still have access to the greatest infrastructure in the rural areas, they tend to settle down where it is much more peaceful like the communities we serve. When fiber is available to you, yes, there are also more business opportunities that become available, along with the fun and convenience too! Streaming video, video calling, gaming and shopping are just a few that make life more enjoyable.

We will be updating our website and facebook page often as the build out continues. If you have any questions, please call the office and we can address them with you.

*Happy Holiday!*

 Find us on Facebook!

**Just in time for the Holidays, Hallmark HD coming soon to Channel 477!**

## Upgrade your router Today!

With more connected devices than ever in your home, you need fast, reliable Wi-Fi. With Communications1 Wi-Fi service, your wireless connection will be reliable and strong to all of your devices, allowing you to stream, game and upload with no interruptions!

- We install and maintain a state-of-the-art **Calix GigaCenter router** for a faster, smarter, and safer connection!
- We audit your home's Wi-Fi signal, check for interference and find the best place for your router to provide the **strongest signals**.
- We can extend Wi-Fi to places you never thought you could reach with Mesh Wi-Fi

**Call the office to get scheduled to have the Giga Center installed in your home today!**

## Holiday Recipe

### Pumpkin Pie Dip

#### Ingredients:

- 1 can of pumpkin puree
- 1 small box of vanilla instant pudding
- 1 8 oz. container of whipped topping
- 1 tablespoon pumpkin pie spice
- A few dashes of cinnamon for garnish

#### Directions:

- Mix all ingredients together and chill. Add a few dashes of cinnamon. Serve with graham crackers, apples, or ginger snaps.

## Community Channel
