From the desk of Randy Yeakel

To all the Communications 1 subscribers I would like to give a status of how we have been coping and dealing with this unusual time. First off, I am not going to mention the _____ - 19 in this note we have all heard it way too much about it and each person has their own opinion on it. Communications 1 is a company that is considered an essential business and we have been taking care of the needs you our customers like normal other than not doing installations for new subscribers for a short period of time. If you need any type of service done inside your home or business our Techs will respect your social distance, each one has hand sanitizer and N-95 masks. I would like to personally say thank you to the employees here at Communications 1 for facing this challenge no different than any other things we have been through in the past. You the subscriber is priority #1 and Communications is our business!
